

## MAKE IT ON A MONDAY

This week we have something a little different and you will need to source some of the materials to complete the project.

Below are links to some  YouTube<sup>GB</sup> clips that we hope will inspire you to make one of these great pots and start growing or give you some new ideas for your indoor or outdoor garden. One of our staff members has made two concrete pots which she personalised and made a great gift for a family member. If you do get 'stuck' Sue will be about on Wednesday, Thursday or Friday to talk you through.

Just Ctrl & Click on the image and it will take you to  YouTube<sup>GB</sup>

	<p>This is one of our favourites, 8 ideas for plants using household cartons or containers that would normally go into the recycling.</p>
	<p>This link is to a clip of 24 pots and planter projects.</p>
	<p>This is a great reproduction of a plastic pot, it is slightly smaller than the original plastic pot but worth the loss of size.</p>
	<p>This is more complicated and is a definite outside project, however the end result is fabulous.</p>

Good luck and please let us know how you got on. We would welcome any photographs that we can share on our social media. Please send photos and comments to [sue.lambert@northtynesidecarers.org.uk](mailto:sue.lambert@northtynesidecarers.org.uk)

**Have fun, looking forward to hearing from you.**
